1. ABSTRACT

Monad Pad is a new platform that aims to make launching crypto projects and investing in them easier. It combines a user-friendly launchpad with tools for developers and users, all built on the Monad blockchain. Project creators can set up and manage presales, while investors can participate in both public and private presales through a tiered system.

The \$MPAD token is the key to accessing Monad Pad's features and benefits. By holding and using \$MPAD, investors can unlock exclusive investment opportunities and be a part of the Monad ecosystem's growth.

Monad Pad's goal is to simplify the often complex process of launching and investing in crypto projects, providing a secure and efficient platform for both creators and investors. With its focus on accessibility and user experience, Monad Pad could become a valuable addition to the crypto landscape.

2. PROBLEM STATEMENT

In the fast-moving crypto world, launching a new project and getting investors on board is really tough.

For creators, the process is full of hurdles - dealing with technical stuff, building credibility in the community, and getting their project noticed by potential investors.

Investors also face challenges - with thousands of projects competing for attention, it's increasingly difficult to tell legitimate projects apart from scams. Accessing exclusive presales and securing spots in high-quality projects often requires extensive networking and insider connections, leaving many investors left out.

Overall, both creators and investors are facing significant obstacles in this rapidly evolving space.

3. SOLUTION

ENHANCED SECURITY MEASURES

Projects on the Monad Pad launchpad can opt for KYC (Know Your Customer) and audit tags, which involve rigorous due diligence by leading providers. This helps build trust and transparency, mitigating the risk of fraud.

MINIMUM LIQUIDITY LOCK

Investor protection is a top priority. Monad Pad enforces a minimum one-month liquidity lock for all presales, preventing project teams from prematurely draining funds and giving investors more peace of mind.

LIQUIDITY REQUIREMENT

Monad Pad mandates that projects allocate at least 50% of their total raise from presales as liquidity. This demonstrates the project's commitment to market stability and investor confidence, aligning their interests with those of investors.

TIER-BASED INVESTMENT SYSTEM

Investors participating in Monad Pad presales are rewarded based on their \$MPAD token holdings. Through a tiered system, investors gain access to exclusive presales and benefits commensurate with their token holdings, incentivizing long-term participation and maximizing their returns within a secure environment.

These comprehensive security measures are designed to instill confidence in the projects featured on the Monad Pad platform, creating a more secure and transparent ecosystem for both creators and investors.

4. THE MONAD BLOCKCHAIN

The Monad blockchain is an advanced, high-performance platform, Monad is designed to enhance scalability and efficiency while maintaining compatibility with Ethereum.

Monad achieves an impressive throughput of 10k transactions per second through optimizations like MonadBFT, Deferred Execution, Parallel Execution, and MonadDb. This allows for greater scalability without sacrificing performance.

Importantly, Monad ensures 100% compatibility with Ethereum tools and dApps. Its client, built with C++ and Rust, leverages pipelining and asynchronous I/O for high performance. Monad operates on decentralized agreement and shared global state, supporting Ethereum-like accounts and transactions.

The gas function works similarly to Ethereum, with transaction ordering determined by a priority gas auction. This provides a scalable, efficient, and compatible infrastructure for building decentralized applications.

5. LAUNCHPAD FUNCTIONALITY

At the core of Monad Pad is a user-friendly platform for launching and participating in presales and fair launches, ensuring accessibility and security for all users.

Any project can create a presale or fair launch on the Monad Pad launchpad, providing opportunities for initiatives of all sizes to gain exposure and funding. Participation in these public offerings is open to all users, regardless of their tier status.

EXCLUSIVE PRESALES (CHAD SALES)

Monad Pad will also curate exclusive "Chad" presales, which are vetted and incubated by the team. These high-quality investment opportunities are reserved for users holding one of the top three tiers. The allocation for Chad sales is distributed as follows: Tier 2 (10%), Tier 3 (30%), Tier 4 (60%).

SEAMLESS USER EXPERIENCE

Users can easily log in to the Monad Pad platform using their crypto wallets and view their tier status based on their token holdings. Investing in presales is straightforward, with a simple process of selecting the desired amount and confirming the transaction in the user's wallet.

TIER-BASED PARTICIPATION:

Monad Pad offers four tiers, each with its own unique name and token holding requirement:

UNICORN TIER

3,000 MPAD

GRIFFIN TIER

10,000 MPAD

PHOENIX TIER

30,000 MPAD

LEVIATHAN TIER

60,000 MPAD

6. PURPLE FRENS NFT COLLECTION

Introducing the Purple Frens NFT collection - a series of 1,111 unique generative PFP (profile picture) NFTs featuring purple frogs. Each NFT is priced at \$500.

The public sale will take place on the Monad Pad platform and will be minted on Monad Mainnet.

The collection includes 20 rare, 1-of-1 NFTs, each uniquely crafted and offering unparalleled rarity. Owners of these exclusive NFTs will automatically receive the highest tier, Leviathan, without the need for additional token holdings.

The remaining NFTs will receive the Unicorn tier. As the project evolves, the Monad Pad team is committed to continuously adding utility and value to the NFTs, ensuring a dynamic and rewarding experience for all collectors.

NFT UTILITIES

- ✔ Staking rewards in \$mpad
- ✔ Access to unicorn tier perks
- ✔ Revenue share from Monad Pad
- ✔ Access to our private group
- ✔ 1-of-1 holders get Leviathan tier perks

NFT SNEAKPEEK

7. \$MPAD TOKEN

The \$MPAD token is the foundation of the Monad Pad ecosystem, unlocking benefits and utilities for its holders. \$MPAD holders gain exclusive access to public and private presales on the launchpad, enabling them to participate in high-potential opportunities.

Holders can also provide liquidity and stake LP tokens to earn \$MPAD rewards. This dual functionality enhances the token's liquidity while delivering additional value to holders.

To incentivize \$MPAD ownership, 10% of platform fees will be used for buybacks and burns, creating scarcity. Another 40% of fees will be distributed as revenue share, allowing holders to directly benefit from the platform's growth.

By aligning the interests of the ecosystem and \$MPAD holders, Monad Pad aims to foster a mutually beneficial and sustainable environment for all participants.

8. TOKENOMICS

Type	Cliff	Vesting
Seed	No cliff	20% TGE, then 6-months linear
Private	No cliff	25% TGE, then 6-months linear
KOLs	No cliff	20% TGE, then 4-months linear
Team	6-month cliff	10% monthly for 10 months
Public	No cliff	No vesting
Ecosystem	1-month cliff	5% monthly for 20 months
Advisors	1-month cliff	10% monthly for 10 months

9. ROADMAP

PHASE 1: FOUNDATION (Q1-Q2 2024)

FUNDRAISING

- Initiate multiple funding rounds to secure the necessary capital for platform development, marketing, and ecosystem growth
- Engage with a diverse range of strategic investors, venture capital firms, and community members to build support for the Monad Pad vision and mission

PLATFORM DEVELOPMENT

- Design and develop the core Monad Pad platform, including the launchpad functionality, user-facing interfaces, and supporting infrastructure
- Conduct extensive testing and optimization to ensure a seamless, secure, and efficient user experience

PARTNERSHIP AND INTEGRATION

- Establish strategic partnerships with leading blockchain projects, VC funds, NFT creators, and other key players in the crypto space
- Integrate complementary features and functionalities based on community feedback and market demands, enhancing the platform's utility and appeal

PHASE 2: EXPANSION (Q3-Q4 2024)

- Conduct the \$MPAD token launch through a fair distribution process
- List \$MPAD on DEXs for trading and liquidity provision
- Implement tokenomics to incentivize participation and reward holders
- Expand community outreach through marketing, social engagement, and education

Phase 2 continues on next page >>

- Enhance the launchpad with tier-based investments, KYC/audit integration, and UI improvements
- Curate exclusive presales and fair launches to attract high-quality projects

PHASE 3: INNOVATION (2025 AND BEYOND)

- Continuously improve the underlying technology and protocol to enhance scalability, security, and interoperability
- Transition to a decentralized governance model, empowering \$MPAD holders to actively participate in decisionmaking processes and platform governance.
- Expand the Monad Pad ecosystem through strategic partnerships and development initiatives

10. CONCLUSION

Monad Pad is a pioneering force in the Monad ecosystem, offering innovative solutions for project launches, and community engagement. This is built on the platform's commitment to transparency, fairness, and empowering users.

The Monad Pad team sees the platform growing into a thriving ecosystem that supports creativity and prosperity. This vision relies on the invaluable contributions of the community, investors, partners, and supporters who have joined this journey.

Your collective efforts have shaped the evolution of Monad Pad as it works to build a decentralized future for the Monad ecosystem – a future where innovation and opportunity converge.

Join us as we redefine DeFi and digital ownership, one block at a time.
